**Dharmendra****Eshwar****Amitabh**

Who is the TRUTH-SPEAKER???

Dharmendra, Eshwar and Amitabh made the following statements regarding the type of vehicle they own. Each one of them belongs to one category of Truth-Speaker or Lie-teller. Only one among them is a Truth-Speaker. Further, each of them owns a different vehicle and each of them own exactly one among car, cycle and bike.

Dharmendra: "Amitabh owns a bike. I am not a Lie-teller. Eshwar does not own a cycle"

Eshwar: "Amitabh is a Lie-teller. Dharmendra is a Truth-Speaker. I own a car."

Amitabh: "Eshwar does not own a car. I am not a Lie Teller. Dharmendra does not own a car".

Question : Who is speaking the Truth?

IMP**How to solve Binary Logic Question? (HINT)**

1. Assume one person to speak truth. Follow the given hints.
2. Check everybody's words in order to find the person speaking TRUTH.
3. Make sure that the person speaking truth does not have any contradiction with what he said, otherwise it shall be a lie, which means our assumption was not correct. We need to repeat the process assuming the other person speaking TRUTH.
4. Another important hint here is only one is the truth-teller, rest both are lie-tellers.
5. The person who speaks truth, says all correct statements. The Lie-teller shall speak everything opposite or False.
